'Chilandi'
transl. 'spider'
a Malayalam typeface

Introducing Chilandi (trans. 'spider' in Malayalam):
Created during Letter Design Semester 4, this spidery Malayalam typeface was
inspired by the typography on Malayalam pulp fiction media from the 60s and
70s. Its sharp curves, monolinear strokes, and structured letterforms, give it a
bold and gritty cham. The typeface balances the dramatic flair of vivntage creep
and horror fiction, and sensational magazinesv, films, etc; with a modern edge,
making it perfect for a variety of display titles : film posters, book covers,
logotypes, or any medium that demands attention.
