The Ol Chiki script invented by *Pandit Raghunath Murmu*, was an epoch-making invention, which provided appropriate writing symbols to the Santhals. The scripts of most other major Indian languages originated in the hoary past and the story of their origin has been a matter of historical research. But the Ol Chiki has been invented only 70 years back. Pandit Raghunath Murmu first conceptualized the script in the 1920s and gave it the

# Glyphs features:-

The character's head part is arching downward and connecting with the bars.

- The terminal of the curving end letters are comming out of it's x height.
